## **Spinal Cord Injury Specialists: Your Expertise is Needed!**

Are you a registered **Physiotherapist, Clinical Nurse Consultant, Occupational Therapist** or **Medical Rehabilitation Specialist** with experience in Spinal Cord Injury management?

We invite you to participate in a study investigating current clinical practices in *pressure injury management* for people with Spinal Cord Injury, including the use of *electrical stimulation* as a treatment tool.

### ***Your participation involves:***

- >> A brief anonymous survey (approx. 20 minutes) <<
- >> An optional interview with a research team member (approx. 30-45 minutes) <<

We welcome your insights whether you have used electrical stimulation or not. Your contribution may help shape future training and professional development opportunities.

**To participate, please scan the QR code below or follow the following link:**
